20'x30' island	= \$30,000	CAD+TAX

More booth sizes available.
Please contact us directly.

4. Booth Design

As a design fair, it is expected that attention be given to the booth design and presentation of product. Items to consider (but not limited to) are: overall design aesthetic, merchandising, wall treatment, flooring and lighting.

Overhead Signage and Lighting & Sound:

Please be advised that you must provide lighting for your booth display. It is mandatory that each booth is properly lit. Each exhibitor must order power directly from the facility. (Order form will be included in the Exhibitor Kit). The overhead lighting at the Vancouver Convention Centre West will not be sufficient.

- No overhead trade banners are permitted.
- No clip on lights are permitted.
- No pop up displays or roll up banners are permitted. Suspended installations and lighting are welcome, please send to management for approval.
- Compromising the sound in neighboring booths will not be permitted.

Your booth design must be submitted before your space can be confirmed.

The Interior Design Show participates in a global programme called *Better Stands*. The goal of *Better Stands* is to celebrate those exhibitors and their contractors who choose to use reusable wooden, metal or other booth systems as we believe they provide a better experience for everyone. Exhibitors participating in The Interior Design Show must fill out a Mandatory Sustainability Survey once contracted. Exhibitors must ensure that their booth designs brought to the show score at least a bronze level within the *Better Stands* platform (Walls/ booth structure, flooring platform, furniture & lighting must be re-used or the exhibitor must have a plan to responsibly recycle these elements).
