

## Exhibitor Essentials #1

We hope you are enjoying the autumn season. Plans are well underway for IDS23 and we look forward to welcoming you back to the show in January.

### IDS23 THEME: MOVING PARTS

We are excited to share the news of one of our key features at IDS Toronto 2023 with you. Moving Parts, the exhibition will be a curated showcase of products that connect to our 2023 show theme "Moving Parts: Design for a Complex World." Designers and manufacturers are invited to submit their products to be featured in this central exhibition of IDS.

The group exhibition, Moving Parts, will showcase up to 15 interior products that have adapted to changing global conditions over the last five years. The exhibition is curated by the IDS team and designed by an Ontario based interior designer. Products will be featured alongside text and images explaining your product.

**There is no fee to participate** and if selected your product will be featured within the feature exhibit at the event, in additional promotion leading up to the event, in newsletters and across IDS social channels.

The application is open to everyone, including those who are already exhibiting. For questions please contact [info@interiordesignshow.com](mailto:info@interiordesignshow.com). **Applications close Thursday November 10, 2022.**

### Submit to the Moving Parts Exhibition

## BOOTH DESIGNS – DUE NOW

If you have not already submitted your booth design, please click here to submit. All booth designs must be approved in advance of the show. If you have any questions,

please email [catia.varricchio@informa.com](mailto:catia.varricchio@informa.com)
