Booth design

Standard wall panels come with a white laminate finish, suitable for vinyl graphics. Custom paint finish is also available for an additional charge.

Sequoia can supply paneling to accommodate a range of exhibit items, including TVs, hanging products or samples, and with holes for electrical/data cables, if required.

In order to meet your booth design goals and supply you with the best suited wall product, please indicate the intended use of your booth walls. Include whether you intend to hang elements such as TVs or products/decor or affix graphic materials, electrical/data wiring etc.
