Ordering Tips!

1. To find out which outlet to order, simply add together the wattage of each electronic piece. There is a nameplate showing the power consumption on the bottom or back of the equipment. For example, 10 - 100 watt light bulbs total: 1000 watt. You would order one 1500 watt outlet. Power is included in all outlets.

2. If you need to have continuous power 24 hours a day, you need to order 24-hour power. Examples include power for refrigerator, aguariums, etc. Normal show power operating hours are generally 8:00am to 4:30pm during move-in and "show hours" during show days.

Special Requirements?

Contact SHOWTECH 6 weeks prior to Move-in Date for quotations.

Ordering Tips!

Q, Lighting

When you order SHOWTECH lighting, you do not need to order power for the lights. If you have an item (i.e. laptop, cell phone charger, etc.) in your booth that requires power, you will have to order that outlet separately.

SAVE TIME DURING MOVE-IN

SHOWTECH requires a Booth Layout for all orders which include under carpet or overhead power, ceiling-mounted lights, water lines or compressed air.
